Planner/Demographer

The Orange County Department of Planning is engaged in issues of land use planning, tourism, transportation, public transit, education, trends research, resource management, agriculture, open space, and economic issues that affect the County.

The Department staffs the Orange County Transportation Council, the Metropolitan Planning Organization for this Region; the Orange County Water Authority (OCWA); the County Planning Board; the County Agriculture and Farmland Protection Board; and the County Municipal Planning Federation.

As an Affiliate of the New York State Data Center, the Department also researches and distributes demographic and economic data, including the dissemination of US Census information.

This Demographic Profile of Orange County, New York was prepared using data from the 2010 Decennial Census and the 2006-2010 American Community Survey 5-year estimates. Data for housing costs, education, transportation and income are provided by the American Community Survey in order to provide more current data on a more-frequent basis and are no longer available from the Decennial Census program.

All data was compiled by the United States Department of Commerce Bureau of the Census; data presented here has been prepared by Megan Tennermann, Planner, Orange County Department of Planning and has not been altered except to extract data relevant to Orange County, its municipalities and the region from larger data sets. If there are any questions regarding this data or other information available from the Census, please contact Megan at: (845) 615-3855 or mtennermann@orangecountygov.com.

Background Information

Current Population and Changes Over Time

Introduction to Orange County

In 1609, Henry Hudson sailed up our Hudson River and anchored the "Half Moon" in Cornwall Bay. Orange County was established in 1683 as one of the original counties of the Province of New York, and is named for King William III of England, a Prince of the House of Orange. Even before its founding, the area was rich in history, with one of the earliest dated human settlements in North America. Mastodons roamed the same territory, and more mastodon skeletons have been found in Orange County than anywhere else.

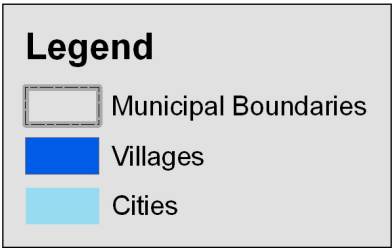

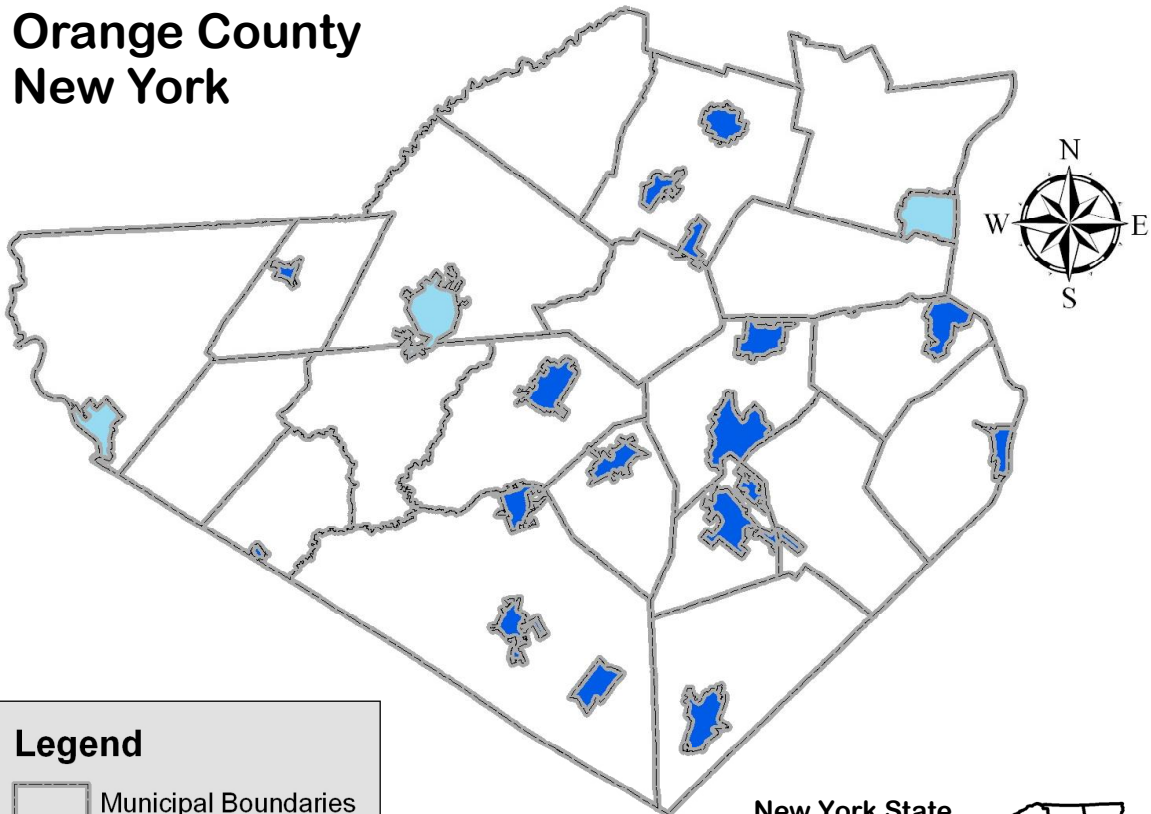

King William III of Orange

George Washington established his longest residency during the Revolutionary War in Newburgh. It was here that he signed the order for cessation of hostilities, ending the American Revolution, and founded the Order of the Purple Heart. In 1850 Washington's Headquarters became the first publicly operated historic site in the United States. The United States Military Academy at West Point has produced military heroes of great renown such as Eisenhower, Patton, and Schwarzkopf. The oldest military academy in the United States, West Point is one of the most popular tourist attractions in the northeast.

Orange is the only New York county located between two rivers, the Hudson on the east, and the Delaware on the west. At one time the Delaware and Hudson Canal connected them. A section of the D&H can still be seen in Cuddebackville along with a museum housing canal artifacts and history. The Delaware and the Hudson, together with the Wallkill River that flows through the middle of the County, contribute greatly to the rich alluvial soil known as "black dirt" that makes Orange County an important rural and agricultural area, with more than 20% of the County's land still devoted to agriculture.

Today, Orange County is the second-fastest-growing county in New York State, and has been the 12th most populated County in New York State since 1990. Its location within 60 miles of New York City and major employment centers in northern New Jersey, together with its access to three major interstates and Stewart International Airport contribute to a strong and diverse commuter base and an increasingly urbanized landscape.

Orange County New York

- ☼ **Orange County ranked as the 12th most populous County in New York in 1990, 2000, and 2010, behind the five counties of New York City, the two counties of Long Island, Westchester County, and Erie, Monroe and Onondaga Counties**
The County is comprised of 42 municipalities: three cities, 20 towns, and 19 villages. The Village of Goshen is the County seat.
- ☼ **The County is traversed by three major highways: Interstate 87 runs north-south on the eastern side of the County, Interstate 84 runs east-west through the center of the County, and State Route 17/Interstate 86 runs northwest-southeast through the center of the County.**
- ☼ **Stewart International Airport is located in the Towns of Newburgh and New Windsor.**

Town totals include village totals

Village of Harriman population, while actually distributed between the Towns of Monroe and Woodbury, is for practical purposes, included entirely within the Town of Monroe

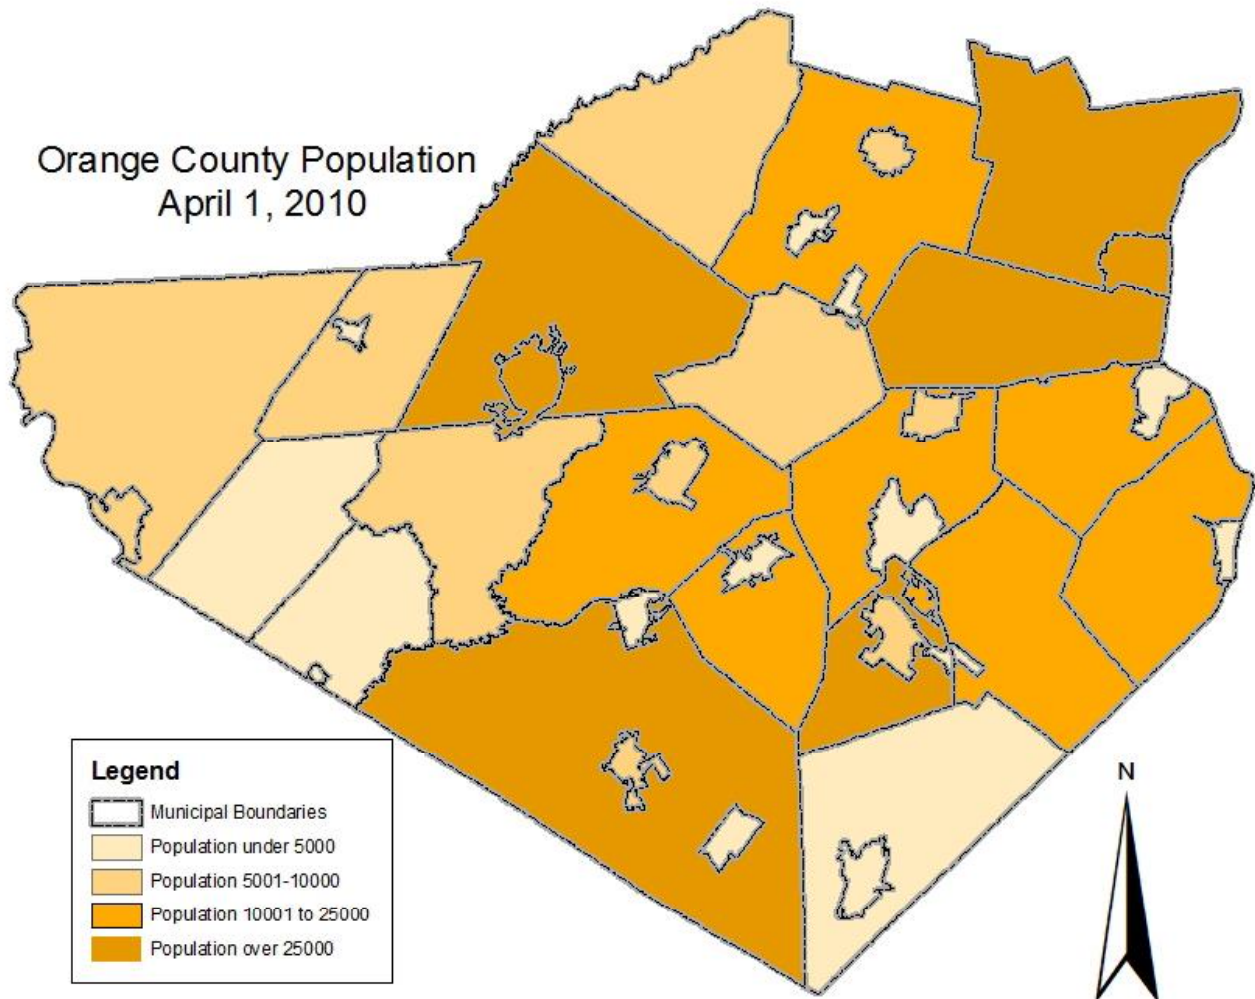

Villages of South Blooming Grove and Woodbury were incorporated in 2006

Source: United States Census Bureau

Prepared by: Megan Tennermann, Planner, Orange County Department of Planning

Note: Although the villages of South Blooming Grove and Woodbury did not exist as of the 2000 Census, people have always lived in the areas that would become the villages. Without official village boundaries, we chose not to estimate a numeric population for 2000 or a numeric change between 2000 and 2010, but in order to show that the population of those villages grew along with their towns, we estimated a rate of growth since 2000.

Orange County Population
April 1, 2010

- 🌸 **Orange County's total population in 2010 was 372,813, a gain of 31,446 since 2000.**
- 🌸 **The Town of Monroe, including the population in the Villages, had the highest population at 39,912.**
- 🌸 **The Village of Unionville had the lowest population at 612, with the Village of Tuxedo Park a close second at 623.**
- 🌸 **The City of Newburgh was the most populous city at 28,866, with Middletown close behind at 28,086 people.**
- 🌸 **About 18% of the County's population reside in the three cities, the same percentage as in 2000.**
- 🌸 **About 26% of the population reside in the County's villages, increasing from 21% in 2000, partly due to the incorporation of the Villages of Woodbury and South Blooming Grove.**
- 🌸 **The remaining 56% of the population reside in the Towns outside the Villages.**

see below

The Village of Kiryas Joel was founded in 1977; we have calculated its overall population growth since 1980, the first year for which we have Census records. The Villages of South Blooming Grove and Woodbury were incorporated in 2006.

- 🌸 Although the Village of Kiryas Joel has registered substantial growth since its incorporation in 1977, it is not alone. The Towns of Greenville and Monroe and the Village of Washingtonville have all more than tripled in population since 1970.
- 🌸 The Towns of Blooming Grove, Chester, Crawford, Hamptonburgh., Minisink, Mount Hope, Walkkill, Wawayanda, and Woodbury have all more than doubled in population since 1970, as have the Villages of Chester, Harriman, and Montgomery.
- 🌸 The County as a whole saw a 68% increase in overall population between 1970 and 2010. Places that exceeded that growth rate but did not double in size include the Towns of Deerpark and Warwick and the Villages of Monroe, Maybrook, Florida, and Warwick.
- 🌸 Overall population losses in the period of 1970 to 2010 were also experienced in several municipalities: The City of Port Jervis, the Town of Highlands and the Villages of Cornwall-on-Hudson, Highland Falls, and Tuxedo Park. The losses in the Town of Highlands and the Village of Highland Falls can be primarily attributed to military force reductions during the 1980s and 1990s.
- 🌸 The Cities of Newburgh and Middletown saw only modest rates of growth between 1970 and 2010, and both cities had population losses between 1970 and 1980. The causes of these issues are not readily apparent.

Explanations: Every racial category listed as "alone" indicates the number of people who reported having only that race in their ancestry. People that indicated having more than one race in their ancestry are included in the "Two or More" category. People of Hispanic or Latino ethnicity can be of any race.

Abbreviations: "NA & AN Alone" indicates people of Native American or Alaska Native heritage; "NH & PI Alone" indicates people of Native Hawaiian or Pacific Islander heritage.

Housing

Where We Live and How We Live

- ☼ The most densely populated place in Orange County is the Village of Kiryas Joel with 18,199 people per square mile, followed by the City of Newburgh (7,588 people/sq. mi) and the City of Middletown (5,533 people/sq. mi).
- ☼ The least densely populated place in Orange County is the Town of Tuxedo with 77 people per square mile, followed by the Town of Deerpark (119 people/sq. mi.) and the Town of Greenville (195 people/sq. mi.).

☼ In 1940, 45.3% of Orange County residents lived in the three cities, with an additional 16.9% of residents living in the villages. Although the villages have increased their share of the population, the cities' share has decreased to approximately 18% of the County's residents. Most residents of the County now live in the towns outside the villages. The population shift to the towns began between 1940 and 1950.

Note: Town totals include Village totals

* = The Village of Harriman is split between the Towns of Monroe and Woodbury, and has a portion of its population in each Town. For purposes of clarity, the total Village of Harriman population is shown under the Town of Monroe; the portion of the Village of Harriman in the Town of Woodbury can be produced in detail upon request.

Explanations: Every racial category listed as "alone" indicates the number of people who reported having only that race in their ancestry. People that indicated having more than one race in their ancestry are included in the "Two or More" category. People of Hispanic or Latino ethnicity can be of any race.

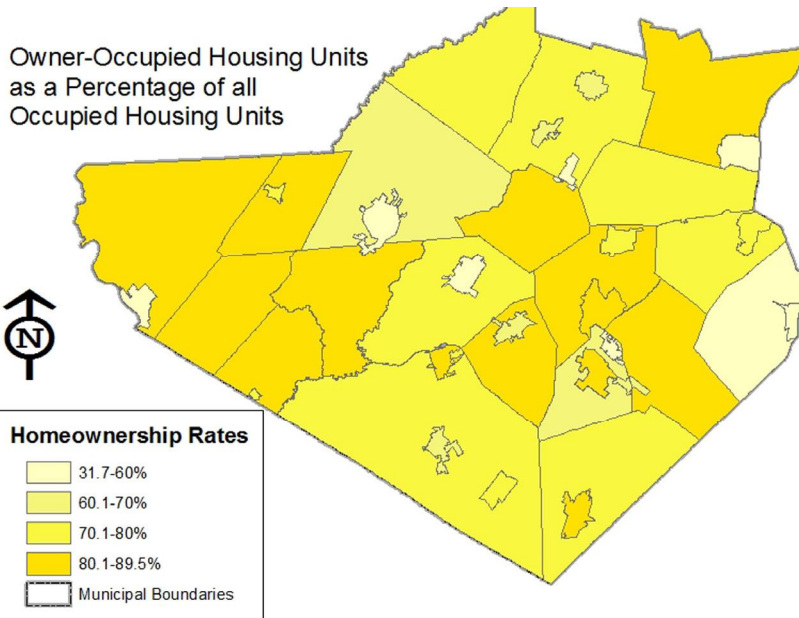

Abbreviations: "NA & AN Alone" indicates people of Native American or Alaska Native heritage; "NH & PI Alone" indicates people of Native Hawaiian or Pacific Islander heritage.

Owner-Occupied and Renter-Occupied Housing Units

Owner-Occupied Housing Units as a Percentage of all Occupied Housing Units

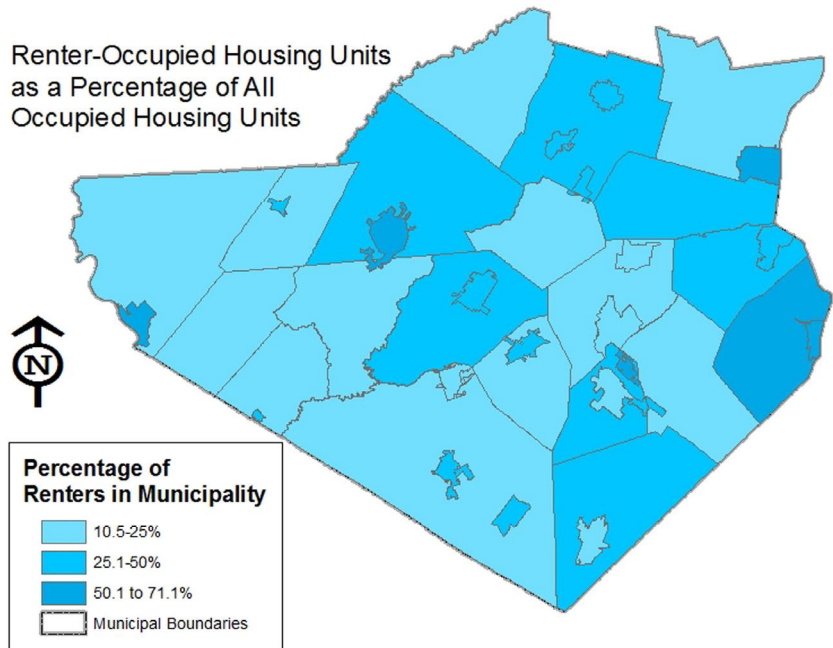

- ☼ The Village of Kiryas Joel has the lowest homeownership rate in Orange County, at 28.9%.
- ☼ The Town of Hamptonburgh has the highest rate of homeownership in the County, at 89.5%
- ☼ Of the three cities in Orange County, Middletown has the highest rate of homeownership at 49%.

☼ The average size of a household living in an owner-occupied home in Orange County is 2.93 people

☼ The average size of a household living in a renter-occupied home in Orange County is 2.71 people

☼ On-base housing at West Point, in the Town of Highlands, is considered rental housing, which greatly increases the percentage of renter-occupied housing units in the Town of Highlands.

Source: United States Census Bureau, American Community Survey 5-year estimates, 2006-2010, Table DP04, Selected Housing Characteristics.

Note: This data, given the small size both of the statistical sample and the municipalities, is averaged over a period of five years, including two years prior to the recession.

Note: The "Selected Monthly Owner Costs" provided in this table are for owner-occupied housing units with a mortgage, which constitute approximately 75% of housing units in Orange County.

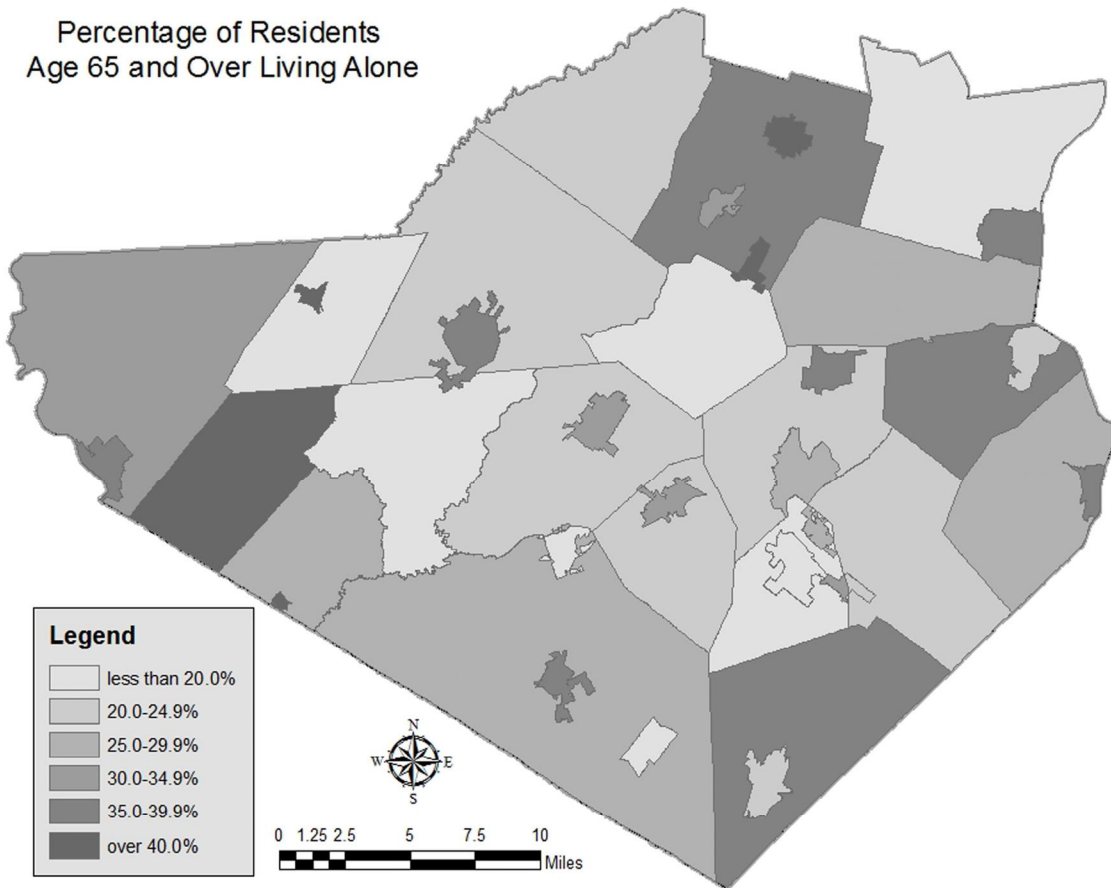

Note: "Housing-cost-stressed" households are households that spend more than 30% of their gross income on rent or mortgage payments and basic utilities such as heat and cooking fuel.

Note: Town totals include Village totals. For simplicity, the Village of Harriman is included under the Town of Monroe, although a portion of its population and housing units are in the Town of Woodbury. Separate figures for the portion of the Village of Harriman within the Town of Woodbury are available upon request.

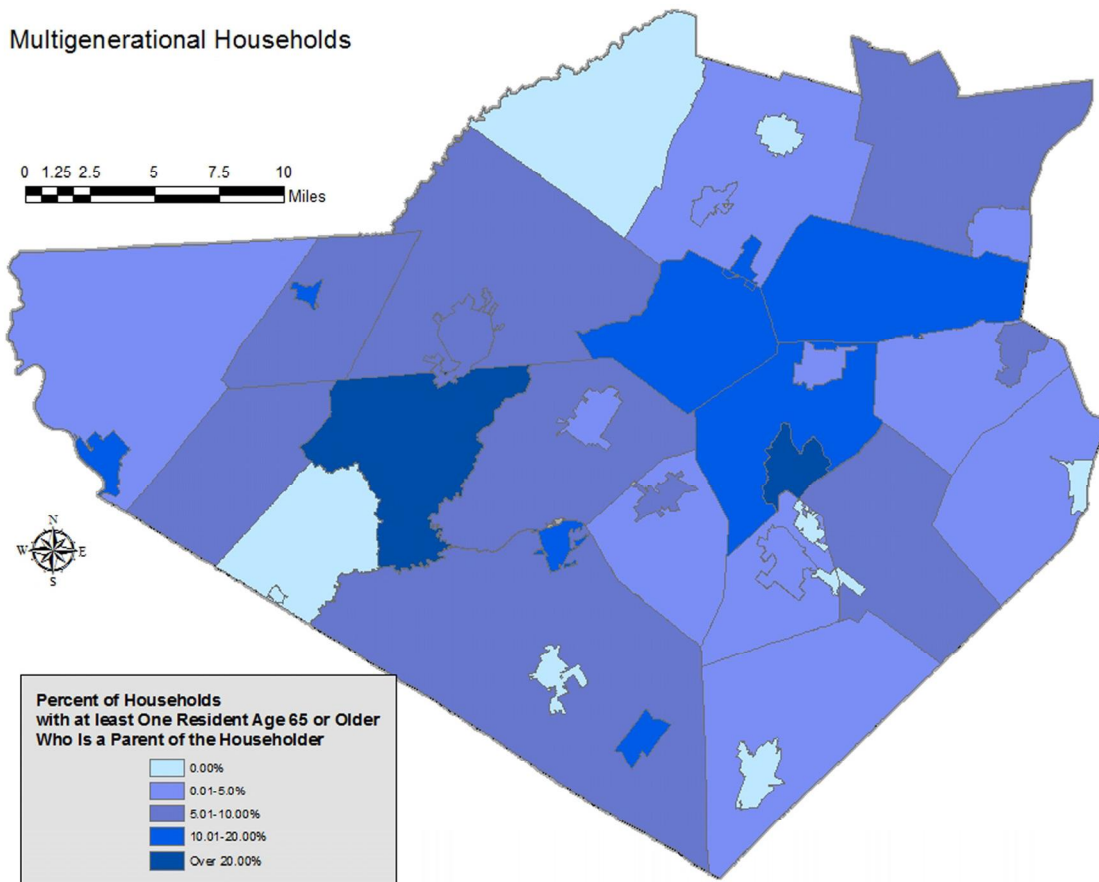

44% of households in Orange County are "housing-cost stressed", meaning they pay 30% or more of their gross household income in housing costs.

Source: United States Census Bureau American Community Survey, 2006-2010 5 year estimates, Table DP03, Selected Economic Characteristics. Dollar amounts given in 2010 dollars. Federal poverty data from Table B17017, Poverty Status in the Past 12 Months by Household Type by Age of Householder. Local poverty data estimate calculated from data in Table DP03 by Megan Tennermann, Planner on July 31, 2012.

Note: Town totals include Village totals. For simplicity, the Village of Harriman is included in its entirety under the Town of Monroe, although a substantial portion of the Village and its population are within the Town of Woodbury. Separate figures for the Village of Harriman within the Town of Woodbury can be produced upon request.

Note: Federal poverty level in 2010 was \$22,314 for an average family of four, per standard measurement published by the US Department of Housing and Urban Development. Local poverty level is determined by RECAP, Inc. of Middletown to be 50% of the County's median household income; in 2010, this was \$34,762.

Note: Town totals include Village totals. For simplicity, the Village of Harriman is located under the Town of Monroe, although a substantial portion of the Village is located in the Town of Woodbury. Separate figures for the portion of the Village of Harriman within the Town of Woodbury may be produced upon request.

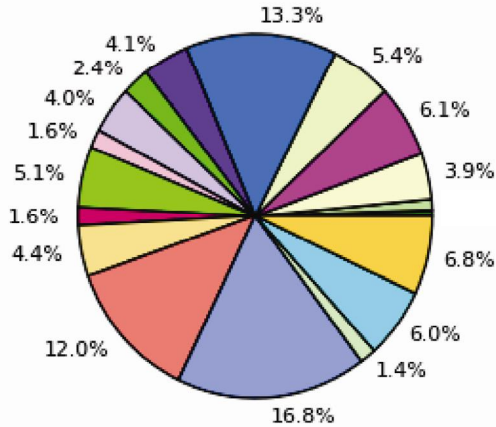

Note: "Labor Force" is defined as those people aged 16 and over who are employed or seeking employment. "Not In Labor Force" includes those people aged 16 and over who are not employed or seeking paid employment at this time. Examples include full-time students, retirees, family caregivers, and people with disabilities.

70.3% of the labor force in the Town of Highlands are active-duty military personnel at the United States Military Academy at West Point. The 105th Airlift Wing of the Air National Guard based at Stewart International Airport is the other major employer of military personnel in Orange County.

The Jobs We Hold—Employment by Industry

Job Counts by NAICS Industry Sector in 2010

Data presented in the chart are for Orange County in its entirety.

Source: United States Department of Commerce Bureau of the Census, Local Employment and Household Dynamics program, collected in collaboration with the Bureau of Labor Statistics. Data presented are for 2010.

Note: The number of jobs listed includes only the number of full time-equivalent salaried or wage-earning employees. This number does not include the owners of any business or immediate family members of the owner who are employed in the business but do not receive wages or salaries.
